

STOLLER® brand Products

MP™
Super Starter

Increased Yield and Quality,
with Stoller's® MP™
Super Starter

Super Starter assists in the effectiveness of nutrient uptake.

Stoller Crop Health Products optimize plant genetic expression by bolstering natural plant tolerance to adverse weather, herbicide and other stresses. *Grow a more marketable crop.* Check this sheet for basic information and benefits from using Stoller's MP™ Super Starter to enhance your crop production. STOLLER® brand products will help increase your marketable yield, and profit.

MP™ Super Starter

Chemical and Physical Properties

Physical State: Organic Liquid
Freezing Point: 0° C - 32° F
Boiling Point: 100° C - 212° F
Acidity: 8.0 pH
Non-flammable
Solubility in water - 100%

MP™ Super Starter

Concentration of Element w/w
Copper (Cu) 1%
Manganese (Mn) 2%
Zinc (Zn) 3%
Iron (Fe) 0.5%
lbs./gallon 10.5

- When MP Super Starter was applied to wheat, it indicated a very large increase in uptake of manganese, copper, and especially zinc.
- MP Super Starter also proved more effective in increasing nutrient uptake when compared to plants which had been treated with a single liquid micronutrient. Again, copper, manganese and especially zinc were much more effective in combination than they were when applied alone.
- The increase in zinc uptake from the zinc in Super Starter was more than 4 times the amount recovered from the application of more than twice as much zinc alone, and the 1% copper and manganese outperformed 5% applications of the two micros alone.

Soil & Foliar Application of MP Super Starter

Rates: .5 - 1 litre per acre

MP Super Starter can be applied alone or with liquid fertilizer for soil applications.

For best results, spray when the crop is in an active growing state, after irrigation or natural rainfall.

Use sufficient spray volume to provide uniform coverage of the leaves and woody tissue on tree crops.

MP brand micronutrients will readily disperse in water. Most pesticides can be added to the spray mixture. Always do a jar test.

For other MP brand products, and other use details, read product label thoroughly for application directions before use.

MP is more than a micronutrient.
